South Campus update

Construction on the 122 St. entrance is to start in February 2013. The SCNC (South Campus Neighbourhood Coalition) has just elected a new board. The SCNC will be meeting with the Minister of Education and MLA Steve Young to discuss South Campus concerns mainly regarding traffic, parking etc... The SCNC is working on getting the University to clarify their definition of "shared use" regarding the campus and proposed ice rinks. The main concern about the ice rinks is whether building them on South Campus is an appropriate use of that land. Also, the condo development in Malmo has been stopped because the original proposal was too high density for the area.

Do you read the newspaper???

Use it to help send our Scouts to camp Lendrums' very own 22nd St.

Johns Scouts have an ongoing used newspaper fundraiser to help send us to camp. We have a collection bin at the rear of St Johns Church at 11111 - 57th ave. Help us fill it with your used newspapers! Please call 780.463.7079 if you'd like to have us pick yours up!

Bike route stakeholder meeting

This meeting will take place on Jan. 23, 2012 from 7pm to 8:15pm at St. Martin's school. The only road in Lendrum affected by the creation of the bike route will be 115St., where there is the potential of losing a lot of parking on that street. It would be beneficial to have a representative attend this meeting

Crime Stats For Lendrum

<http://www.edmontonpolice.ca/CrimeFiles/NeighbourhoodCrimeMapping.aspx>

Attention Lendrum Residents!

A resident called to let us know that someone rang his doorbell at 4 AM on a Sunday morning telling him there had been an accident further down the street, and could he use his phone. The homeowner looked down the street and didn't see an accident so asked this person his name. The person responded Dyson. After being told to go home he then left.

Be very careful when someone tries to get entry into your house for any reason, city police say that once that person gets in to use your phone that person then wants to use the washroom, etc. in order to casing out your house to do a house invasion or break and enter at a later date. It goes without saying, but a reminder is always good to never let a stranger in your house.

Warning for Lendrum Residents

Some aggressive scammers from an Energy Company are in Lendrum. In spite of their glossy name tags they have no business seeing your utility bills. They are very insistent and pushy.

See Link to same tactic used a couple years ago:

<http://cnews.canoe.ca/CNEWS/Crime/2010/02/25/13019261-qmi.html>

Again *do not* show anyone personal information. They have no business "checking" your bills.

LEARN TO SKATE AND LEARN TO PLAY HOCKEY PROGRAMS

Learn to Skate and Learn to Play Hockey programs are designed for children who have never skated or played hockey before. Programs are developed in partnership with Community Leagues and are offered in a variety of neighbourhoods across the City. There are over 20 programs offered across South Edmonton this season. The focus is on fun, participation, achievement, and of course the basics of ice-skating or hockey.

For information call 311, visit www.edmonton.ca/ereg

THE CITIZEN DASHBOARD

The City recently launched the [Citizen Dashboard](#), a new online tool that shows performance results for some of the key services the City provides for Edmontonians. The tool reinforces the City's commitment to openness.

The Citizen Dashboard summarizes how well the City is performing on eight key services from the [Way We Move](#), the City's Transportation Master Plan. In the future they plan to add all of "The Ways" Master Plan to this document. For more information go to: <http://ecity/ecitynews/new-online-tool-provides-service-information.aspx>

Trail Closures

Over the next three years construction of the new Walterdale Bridge will have an impact on the area surrounding the current bridge. As a result, pedestrian and cyclist movement in the area will be affected. Some of the River Valley trails will be closed to accommodate construction of the new bridge and associated roadway work, and ensure pedestrian and cyclist safety throughout the project area.

The work includes construction of the new Walterdale Bridge that will span the North Saskatchewan River to connect the Queen Elizabeth Park Road/Walterdale Hill intersection on the south side to the River Valley Road/Rossdale Road/105 Street intersection on the north side. It will also include roadway works such as re-aligning Walterdale Hill Road and Queen Elizabeth Park Road, and multi-use trail connections.

The affected areas are the lower portion of Queen Elizabeth Park, the gravel path in the lower portion of Kinsmen Park and the area around the EPCOR Generating Station. Please see the attached map for trail closures and detours.

To ensure pedestrian and cyclist safety, the trails will be closed on **January 7, 2013** and will remain closed until construction is completed. This is anticipated to be in late 2015. For your safety, please stay away from the closed areas during construction.

Emergency Medical Services

Sledding Safety

Alberta Health Services, EMS would like to remind parents and children of some basic sledding safety tips as the winter season continues. Sledding injuries can result from collisions with stationary objects such as trees and rocks or with other people on the hill. Unprotected falls can result in injury if you lose control at high speeds. Everyone is at risk – especially children. Educate your family how to stay safe by following these simple reminders and have a fun day on the toboggan hill.

<p>Equipment</p> <ul style="list-style-type: none"> ☐ Ensure your sled is in good condition. Do not use sleds with broken parts, sharp edges, or splits in the material. ☐ Currently, there are no helmets designed specifically for sledding. However children should wear a properly fitted helmet designed for high impact collisions, such as hockey, cycling, or climbing helmets. <p>Hazards</p> <ul style="list-style-type: none"> ☐ Avoid hills that are too steep, or too icy – you can lose control very quickly. ☐ Choose hills free of obstacles such as trees, rocks, utility poles, or fences. ☐ Be mindful of clothing that contains drawstrings, or loose clothing, such as scarves, which can present a choking hazard if they become caught or snagged. 	<p>Plan ahead</p> <ul style="list-style-type: none"> ☐ Dress warmly in layers and anticipate weather changes. ☐ Consider bringing extra sets of gloves and toques to exchange wet garments for dry ones. ☐ Take breaks to warm up out of the cold. ☐ Ensure frostbite hasn't affected any exposed skin. ☐ Even when properly protected from the elements, the finger tips, toes, ears, the tip of the nose, and other high points on the face such as the forehead and cheek bones can be affected by frostbite. ☐ If frost bite has occurred, treat it by first removing the individual out of the cold environment. Gently warm the affected skin by placing a warm hand over it or by placing the affected part in warm water (not hot; ~41°C max.) until re-warmed.

We need the membership of your Community League to get out and vote!

Last year, Avenue Magazine conducted our first-ever Best Neighbourhoods survey, in conjunction with Banister Research and Consulting Ltd.

The response was tremendous. And after months of number crunching, the survey provided the data we needed for our first-ever [Best Neighbourhoods issue](#), which came out in August, 2012.

Strathcona won, Garneau came in second. But we want to do it again for 2013. We got a lot of feedback from those who didn't think their neighbourhoods were well represented. Now, they have the chance to make their voices heard. Please pass this onto members of your community league. Make their votes count for our magazine's 2013 Best Neighbourhoods Survey!
